Current Specialized Instruction Data

| # of Students | Specialized Instruction (min/wk) |
|---------------|-------------------------------------|
| 36 | 9355 |

*This number does not include Speech only IEPs.

Based on the 36 students with IEPs who receive specialized instruction (academic instruction), there are a **total of 9355 minutes** that need to be met by special educators. At times, students are seen in groups; however, sometimes the need is for 1:1 instruction. Special Education Teachers (4) currently have **6,100 available minutes** for instruction.

Additional Things to Note:

This is the current number of minutes needing to be met.

This total number of 9355 minutes does not include any students in the evaluation procession or future referrals.

MTSS is an important part of the Special Education process:

- Students who require intervention support are referred to the MTSS Team first.
- Students will participate in interventions with specific goals.
- When students have been in MTSS and are not making progress, a Special Education referral is considered.
